PREFERS TO GO TO PRISON

New Yorker Declines to Tell Who In-
duced Him to Register Falsely.

New York, Nov. 5.—Rather than re-
veal the identity of the politician who
induced him to register falsely in two
election districts, Joseph Healey ac-
cepted sentence of not less than four
years and six months and not more
than four years and eleven months in
prison. This is the maximum penalty
for the crime. Healey was told by
Judge Rosalsky several days ago that
if he would reveal the man higher
up he would save himself.

Weston Ahead of His Schedule.

Torrington, Conn., Nov. 5.—After
traveling 78 miles from Andover and
thereby completing one of the biggest
days in point of miles since he left
Portland, Me., to walk to Chicago, Ed-
ward Payson Weston arrived here. He
is now about thirty miles of his sched-
ule.

Roosevelt Leaves Washington.

Washington, Nov. 5.—President
Roosevelt has left Washington for the
purpose of casting his vote at his leg-
al voting residence—Fishers Hall, over
Sing Lees' laundry in Oyster
Bay.

Dr. Price's Wheat Flake Celery Food

Unless food is eaten with a relish it does the
body no good. Eat what you like and what
agrees with you. Try Dr. Price's improved
wheat and celery food. You will surely like it
and it will like you. It is suited to the needs
of the body; of great nutritive value; pleasing
to the taste and most wholesome.

SAYS IT WOULD BE UNWISE

Fowler Opposed to Calling Extra Ses-
sion of Congress.

New York, Nov. 5.—It would be un-
wise to call an extra session of con-
gress now to consider the legislation
and the federal control of corpora-
tions, is the opinion of Charles M.
Fowler of New Jersey, chairman
of the banking and currency committee
of the house of representatives.

"What the country needs more than
anything else," said Mr. Fowler, "is
rest, recuperation and revival of faith
and hope in American manhood; not
unrest, apprehension and destruction
of confidence in American business."

"The banks of the United States, of
which there are more than 12,000,
with the very rarest exception, are
managed by honest and able men, and
considered from the standpoint of as-
sets they are sounder and stronger to-
day than they have ever been before.
Because of the want of a wise and
proper currency system, they are tem-
porarily short of sufficient currency to
transact their daily business."

"In just four weeks congress will
meet in regular session and nothing
could be gained by a special session,
as no currency legislation could be
passed to meet the exigency which is
fall upon us and is being bravely,
wisely met."

"Certainly there is no legislation
looking toward the governmental con-
trol of corporations doing an inter-
state business that will seriously suf-
fer during the next thirty days."

"Under the circumstances to call an
extra session would be most unwise."

INSTEAD OF LEGAL TENDER

Denver Clearing House Association
Will Pay in Bank Scrip.

Denver, Nov. 5.—The Denver Clear-
ing House association has decided to
adopt the plan of paying checks and
other obligations in bank scrip instead
of legal tender. The plan will be put
into operation as soon as the scrip
can be printed.

The scrip will be issued in denomi-
nations of \$1, \$5, \$10 and \$20. A com-
mittee of seven consisting of one from
each bank in the clearing house was
appointed to pass upon securities of-
fered by the banks to guarantee the scrip.

Banks will be permitted to issue
scrip up to 75 per cent of the value
of the security given.

MURDERED AND ROBBED.

Italian Woman Killed and Her Money
Taken.

Philadelphia, Nov. 5.—Marine Car-
mela Mongolluzzo, an aged Italian
woman, was murdered and robbed of
\$700, the savings of herself and hus-
band, while she was at work in the
shed in the rear of her home in South-
west Philadelphia.

The woman's husband, Matta Mon-
golluzzo, left her at the washbasin when
he went to work, and when he re-
turned home he found her lying in the
shed with her throat cut from ear to
ear.

Six hundred dollars that the couple
had saved was sewed in the woman's
dress and nearly \$100 additional was
in her purse. When Mrs. Mongolluz-
zo's body was found the pocket con-
taining the money had been cut from
her dress and the purse was gone.
The couple lived in an Italian board-
ing. A dozen boarders in the house,
together with the husband, were taken
into custody by the police for ex-
amination.

IN TENNESSEE COMPANY.

Steel Corporation Obtains a Control-
ling Interest.

New York, Nov. 5.—The United
States Steel corporation has secured
a controlling interest in the Tennes-
see Coal, Iron and Railroad company.
The deal has been concluded and is
traceable to the conferences recently
held at the home of J. Pierpont Mor-
gan. It is understood the price paid
is a little above \$85 a share. The
holdings of a pool controlling some 70
per cent of the stock of the Tennes-
see Coal, Iron and Railroad company
were transferred in the sale. This deal
cannot fail to do much to relieve the
present financial stringency, as large
amounts of the stock of the Tennessee
Coal, Iron and Railroad company are
now held as collateral for loans by
the local banks. The taking up of
these loans by the new owners of the
stock will add materially to the cash
resources of the financial institutions.

THREE ITALIANS KILLED.

Dynamite . . . Outrage. Perpetrated. at
Coleraine, Minn.

Duluth, Nov. 5.—Three Italians
were killed and two injured in a mys-
terious explosion of dynamite which
occurred at the Canistoe mine, near
Coleraine. Seven Italians were keep-
ing bachelor's quarters in a log cabin
near the mine. The cabin was dynam-
ited and three of the men were
killed. Two others were injured and
the remaining two escaped unhurt.

The men recently withdrew from
the Western Federation of Miners and
it is suspected that some of the more
violent adherents of the organization
may have had something to do with
the outrage.

FOR THE NORTHWEST

Secretary Cortelyou Promises
to Do All He Can.

WHITE HOUSE CONFERENCE

Senator Nelson of Minnesota and
Twin City Bankers Talk Over Sit-
uation With the President and the
Secretary of the Treasury.

Washington, Nov. 5.—Senator Nel-
son of Minnesota has arrived here
with a delegation of bankers from St.
Paul and Minneapolis and had an au-
dience with President Roosevelt.
Those accompanying Senator Nelson
are J. W. Lusk, C. T. Jaffray, J. W.
Decker and C. W. Harrington.

Though the senator refused to dis-
cuss the object of the conference, it
is understood it related to the finan-
cial situation in the Northwest.

After the conference Secretary Cor-
telyou said measures for the relief of
the grain men of the Northwest were
talked over and it was authoritatively
announced that the secretary had
agreed to extend help and to do every-
thing else possible to expedite the
movement of grain. Just what he
purposes to do he would not state.

The situation in the Northwest with
respect to the need for funds to get
out the wheat crop before the close
of navigation was fully presented to
President Roosevelt and Secretary
Cortelyou at the conference of Sena-

SENATOR KNUTE NELSON.

tor Nelson and Messrs. Lusk and
Decker of the Twin City clearing
houses and by Messrs. Harrington and
Heffelfinger, representing the grain
men.

The president and secretary heard
the statements through and manifest-
ed special interest in what was said.
No detailed statement is obtainable as
to the result of the deliberations, but
it is safe to say that the Minnesota
men were assured that the govern-
ment will extend some relief along
the lines desired, all of which was
very gratifying to the delegation.

Special efforts directed by the
treasury in getting out currency in re-
sponse to the demands of the banks,
and discussing financial questions as
affecting the Northwest particularly,
at the White House and in the treas-
ury department were the features
here of the situation growing out of
the money tightness.

The little talk that was indulged in
by President Roosevelt and members
of the cabinet was upon lines intend-
ed to give assurance to the country.

That there will be no special ses-
sion of congress was emphasized, and
it was made clear that President
Roosevelt has not forestalled the
money question by any advance views
to be incorporated in his message re-
garding currency legislation.

BANKS OF THE NORTHWEST

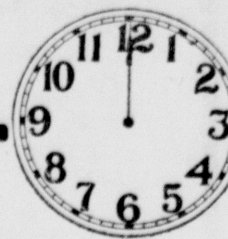

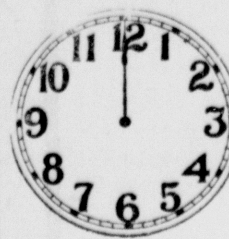

Agree to Conduct Business on One
Plan for the Entire Section.

Seattle, Wash., Nov. 5.—The banks
of the Northwest, at a meeting held
here, agreed to conduct business on
one plan for this entire section. The
cashiers' checks that are being issued
by these banks in place of cash will
be accepted by all the banks in the
Northwest, furnishing the district with
a new form of currency.

The meeting was well attended and
the decision to make this scheme uni-
form was unanimous. It was agreed
that the banks of the entire North-
west should back the checks. It is be-
lieved that this system makes North-
west banks absolutely safe during the
financial stringency.

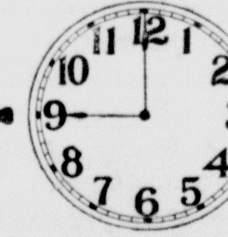

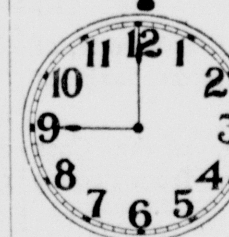

Guilty of Accepting a Bribe.

Milwaukee, Nov. 5.—Max Rhein-
holdt, former supervisor from the
Nineteenth ward, pleaded guilty be-
fore Judge Brazee to the charge
against him resulting from the grand
jury investigations. He was fined
\$200. Reinholdt was charged with ac-
cepting a bribe of \$50 in connection
with a county hospital contract.

Texas Negro Lynched.

Cameron, Tex., Nov. 5.—Following
his indictment on a charge of attempt-
ed criminal assault, Alex Johnson, a
negro, was taken from the jail here
by a mob of 500 men and hanged to a
tree in the courthouse yard. Officers
and influential citizens vainly pleaded
with the mob to allow the law to take
its course. The town is quiet. The
governor ordered out the militia, but
not in time to save the negro.

Shoots a Girl and Himself.

Norfolk, Va., Nov. 5.—Joe Dean, an
eighteen-year-old boy, called Julia
Johnson, a girl also in her teens, to
the door of her boarding house and
shot her through the abdomen. He
then shot himself in the temple. Both
will die. Jealousy is said to have
been the cause.

Americans Injured in Paris.

Paris, Nov. 5.—A Mrs. Parker of
New York city, her son and a Miss
Conrad of Erie, Pa., were slightly
injured in a street accident in this
city. The carriage in which the party
was driving came into collision with
an automobile.

Possible Population of the Earth.

By the best reckoning the earth's
population for some two centuries or
so has been increased at the rate of
about a million a year. From now on,
on account of improved material con-
ditions and the diminution of the slaugh-
ter consequent to war, the increase
bids fair to be much greater. It has
recently been estimated that the earth
under present conditions might be able
to support a number treble that of its
present population—that is, about
4,500,000,000—four thousand five
hundred millions. By means of scientific
appliances and the reclamation of arid
and swamp lands it has been calculat-
ed that the figure given might be dou-
bled or even trebled, giving ten or pos-
sibly fifteen thousand millions as the
ultimate limit of the earth's popula-
tion.—New York American.

In the great observatories of Europe
and America there are men who are
spending their lives in entering in big
books night by night figures that mere-
ly go to make up tables from which
our descendants, centuries hence, shall
be able to calculate the procession of
the equinoxes.

Sheriff Erickson went to Hubert today "to see a man." As he carried a double barreled shot gun the inference was that he was going to do a little hunting on the side.

The Yellow Wagons do the business and do it right. They deliver Zenith coal. 131t2

Agency manager wanted by leading Minneapolis newspaper. Must be a hustler and can furnish good reference and bond—only partial time required. Call on E. M. Holmes, Ransford Hotel. 1tp

The Minnesota & International is having the heaviest passenger trains in and out of the city. The train today consisted of four passenger cars and a combination baggage and smoker.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 7c. Take Hall's Family Pills for constipation.

Try an ad in The Dispatch, they always bring results.

O. H. Havill, of St. Cloud, a leading banker of that city was in Brainerd last night. Mr. Havill was in the employ of C. F. Kindred in this city twenty-five years ago and is well known to the older residents.

Do not accept any of this—just as good stuff—buy Zenith coal and get the best. The Fisher-Budd Fuel Co. 131t2

The chorus of the Ladies Musical club met last evening at the home of Mrs. Ed. P. Slipp. The numbers for the Tannhauser program were studied. The chorus will meet again with Mrs. Slipp on next Monday evening when the cantata will be taken up. A full attendance is earnestly requested.

It was of importance that Admiral Dewey before the battle of Manila had the decks cleared for action; equally important is it to have the lungs cleared for action by taking Skauge's Never Cough, made, sold and guaranteed by Skauge, the Laurel street druggist. 118tf

MADE MIRTH AND TROUBLE.

Some Amusing Incidents Over Designing the First Dollar.

Documents in the congressional library at Washington show that when the establishment of a mint was under discussion in Washington's time there were some amusing debates in congress concerning the devices the coins should bear. There is one account of a squabble over the design for the silver dollar.

It appeared that a member of the house from a Southern state bitterly opposed the choice of the eagle on account of its being the "king of birds" and hence neither suitable nor proper to represent a nation whose institutions and interests were wholly inimical to monarchical forms of government.

Judge Thatcher in reply had playfully suggested that perhaps a goose might suit the gentleman, as it was a humble and republican bird and would also be serviceable in other respects, as the goslings would answer to place upon the dimes.

This reply created considerable merriment and the irate Southerner, considering the humorous rejoinder as an insult, sent a challenge to Judge Thatcher, who promptly declined it. The bearer, rather astonished, asked: "Will you be branded as a coward?"

"Certainly, if he pleases," replied Judge Thatcher. "I always was one, and he knew it or he would never have risked a challenge."

The affair caused much mirth, but was finally adjusted, cordial relations being restored, the irritable Southerner concluding there was nothing to be gained in fighting one who fired nothing but jokes.

A Divided Answer.

The country mind sometimes works slowly, although with an enviable weight and accuracy, but the country mode of expression is usually to the point. Even its pauses serve their turn. They are always of rhetorical value. An old fisherman sat by the sea wall skinning eels which were that forenoon to be packed in ice and sent to a city market. A young woman, a visitor in town, stood by watching the unusual occupation and quite fascinated by the ease and dexterity with which it was carried on. At length she felt the necessity of "making talk."

"What do you get for eels?" she asked. "Nothin'," returned the old man emphatically, stripping off a skin. Then with the same precision and lightning-like haste he "peeled" another and another, leaving his visitor to wonder at the eccentricity which prompted him to take so much trouble unrequited. It was only after she had given up the question as a bad job that he calmly finished his sentence—"to what I'd ought to."

SOUTH BROADWAY ORDERED PAVED

City Council Order Paving of That Street so That Levy Can be Made This Year

TEAM ROLLER BILL REFERRED

Proposition For Storm Sewer on Maple Street Was Laid on The Table

All of the members of the city council were present Monday evening when a regular meeting was called to order by Ald. Drexler.

The clerk of the municipal court reported 19 arrests in city cases, 9 paid fines, six were committed without paying fines, two sentences were suspended and two were discharged. \$179 in fines was collected, also fees amounting to \$9.40. The report showed 21 civil cases started and five settled.

The chief of police reported 25 arrests, six in state cases and 19 in city cases.

The reports were accepted as was that of the poundmaster.

The chief of the fire department reported four fire calls during October, the Joe Howe barn, a blaze in the J. Howe mill yard, an alarm from the arce block and the fire at Mrs. Carter's on Main street. The report was accepted.

The claims and accounts against the city were then taken up and the city rolls were allowed as follows:

City officers.....\$263.33
Police.....507.00
Fire department.....149.00
Remen.....31.50
Electric light employees.....492.50
Street employees.....306.90

P. G. Fogelstrom was allowed a bill for work on the Baker bridge at 70c an hour and afterwards kicked on \$2 for work on the Pine River road inside the city limits. The work had been ordered by Mayor Wise and the bill was allowed. It was afterwards explained that Alderman Fogelstrom's bill included the use of his pile driver.

The bill of the Geo. A. McKinley Co. for piling at the Baker bridge at 20c per lineal foot was referred back to the purchasing committee on request of Alderman Fogelstrom, who stated that they had sold piling to the county for 1c per lineal foot.

The bill for \$1,700 for the steam road roller was, on motion, referred to the street committee. Alderman Drexler and Alderman Fogelstrom did not think the roller was as represented. It was guaranteed for two years and had stood the test.

The council allowed a bill of \$37.04 for expenses of the special water works committee to St. Paul and Minneapolis. The bill of R. K. Whiteley was allowed less \$5.00 for time put in with contractors on the third district sewer. The city attorney held that if bidders in city work wanted more information from the city engineer than was provided in the plans and specifications it was up to them to pay him for his time. Alderman Fogelstrom, from the committee on streets, sidewalks and bridges reported that there had been four days of work in with man and team hauling dirt bark onto East Oak street and that it would soon be finished and in good shape.

The old, old question of the Jerry Howe hole on the corner of Main and Sixth streets was brought up by Alderman Fogelstrom, who wanted to know what to do with it. There was considerable discussion, Alderman Farrar maintaining that the city should bid

the property in at forfeited sale and then fill it in and put in a walk. He believed that if the city owned the property it could get its money for the side walk back.

The sewer committee reported advising the placing of two catch basins at the corner of Broadway and Laurel streets, also putting a storm sewer in from the corner of Maple and Sixth streets west to the ravine. There was considerable informal discussion as to the best thing to do and then City Treasurer Wright dropped in a bomb shell by saying that the Second ward had paid for its own sewer and he could see no reason why the city at large should put in any more sewers for the First ward. Mr. Wright also reminded the city fathers that they were short of available cash and could not run in debt as in the past.

Alderman Toohey moved that that part of the report regarding a storm sewer from Sixth street be laid on the table. He was emphatically against spending any further money on these improvements this year. Alderman Farrar did not believe the present sewers would carry a heavy rain like the bad storm this summer.

Alderman Fogelstrom believed that improvements were a necessity. He said that he would not put money on out side parts of the town, but would improve the business section first. Would treat all alike and improve the entire town.

City Treasurer Wright presented an off hand estimate of the city's financial condition. He said there was now on hand about \$4,600. Of that bills amounting to \$1,672 were allowed at this meeting. There were the bill for the steam roller, \$1,700 which they would probably have to pay, and \$400 for the fire team, which would have to be paid. There are now \$5,600 in warrants outstanding but he estimated that the December settlement would just about take care of them. It would require, by careful figuring, \$1,500 per month to run the city until the next settlement in July and if the city kept inside of that it would come out all right.

The electric light department was, he said, the only one in the city which had plenty of money. It had \$3,400 in the treasury after setting aside \$2,000 for sinking fund. The report of the sewer committee was then laid on the table.

The report on the Fifth ward sewer was presented advising the building of a sewer from Broadway to the sewer in the ravine on Oak street. It was referred to the city engineer to prepare plans for the organization of the sewer district to be known as No. 4.

Mr. Wright again asked about money to pay the bills already contracted in connection with the Third district sewer in the Fourth ward, but the matter was left over until next meeting.

The city attorney reported in regard to the question submitted to him at last meeting of the council as to the liability of the city on the sewer warrants in the Second ward, that the city was in no way liable, and had no authority to pay them. As to the matter of interest after the coupons were all paid, he said he thought the city treasurer should pay interest if there was any money in that particular fund to pay it with.

He also reported on Alderman Turcotte's claim for \$350 for damage to his building by water, holding that the city was not liable. There was no duty incumbent upon the city to put in sewers nor to put in large enough ones if they did put them in. If they permitted them to become and remain stopped up they were responsible if water backed up from them.

Even if the city had been negligent it would not make them liable if natural causes were in part to blame. The negligence must be the cause. The only theory on which the city would be justified in making any recompense was that the paving of Sixth street had brought the water down the street so much faster that it had not had time to run off and could not soak in because of the paving. The report of the attorney was accepted.

A resolution was presented and passed ordering the paving of South Broadway between the south line of Laurel street and the south line of Oak street to a width of sixty feet and curbing it with cement curbing. The resolution also directed the city engineer to prepare plans and specifications. All aldermen voted aye.

The liquor licenses and bonds of J. C. Jamieson, Iver Holden and Adam Armstrong were presented and approved and the licenses granted.

Alderman Toohey wanted to know what action the city attorney had taken on the matter of making the county pay its share of the small pox expenses of a few years ago. The city attorney said he had not taken the matter up but would do so.

A petition was presented from citizens on North Tenth street regarding the covering of the water pipes with manure where the city had exposed them by grading. It was referred to the street committee with power to act, despite the protests of Alderman Fogelstrom, chairman of that committee, who thought it should go to the sewer committee.

An application for the position of driver of an extra team was presented and ordered placed on file.

The city engineer reported that he had not turned over the corrected levy for side walks to the city clerk, but would do so at once.

The council then adjourned.

Dancing Proves Fatal

Many men and women catch colds at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. t-t-s

RAILROAD NEWS

The Great Northern has formally taken over its subsidiary lines in Minnesota deeds having been filed in St. Paul covering the following lines:

Minnesota & Great Northern, consideration \$1,000.

Willmar & Sioux Falls, consideration, \$7,327,904.23.

Park Rapids & Leech Lake, consideration, \$512,817.26.

Eastern Railway of Minnesota, consideration, \$16,783,545.64.

Minneapolis Union railway, consideration, \$808,607.16.

Deeds were filed yesterday transferring to the Great Northern the St. Paul, Minneapolis & Manitoba road.

Pneumonia Follows a Cold

but never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and prevents pneumonia. t-t-s

Big Fur Display

Our fur man from the east will be with us Wednesday, Nov. 6, with a swell line of everything in furs at the busy store of L. M. Koop's. 130t2

OIL FOR RICH, BLACK HAIR.

Product of Olive Accounts for Beauty of Glossy Tresses.

Returning recently from South America, Mrs. W. S. Cowles, wife of the rear admiral, announced she had discovered why Spanish-American women had hair of such gloss and blackness—glossier than their cousins of old Spain, as a rule, and of a richer black. Olive oil, said Mrs. Cowles, was the secret.

She learned in the course of her subsequent journeying that ninety-nine Latin beauties in every hundred oiled their hair with the unctuous product of the olive, and that the habit accounted for the beauty of their tresses. It was easy to understand, she remarked, that olive oil darkened the locks, and no one familiar with its nourishing qualities would wonder that it gave new strength to the hair.

Olive oil is new to North Americans as a hair tonic, though other kinds were used even by men until soap attained its present popularity. Carl Formes, the basso—he was christened Karl, but changed the spelling so he might sign his name with musical notes for the initials—used to anoint his coal-colored mane nightly with kerosene.

It wasn't the most fastidious habit in the world, perhaps, but it kept him black haired to an advanced age—in fact, it made the hue of his hair outlast the vigor of his voice. "Black Jack" Logan, the Union army's great cavalry general, was suspected of oiling his hair with the same kind of crude fluid, but his most intimate friends always denied it.—New York Press.

Cigar Salesman Wanted. Experience unnecessary. \$100 per month and expenses. Peerless Cigar Co., Toledo, Ohio. 130t6

If people were as willing to believe good of others as they are to believe good of themselves there would be a universal grin that would compass the earth and lap over and signal Mars.

QUITS CONSTRUCTION WORK

Work on the Soo Line to be Discontinued East of Onamia Which will be a Division

E. R. Smith, who came up from Minneapolis Monday evening, reports meeting a couple of Soo line contractors on the train who stated that all work east of Onamia, the proposed division town in the northwest corner of Mille Lacs county, had been discontinued. It was attributed by them to the money flurry, but it is said to have been for some time the intention of the Soo line to complete no more than that portion of the line this year. There is said to be considerable building being done at this point this year and it has every appearance of being a coming town.

We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the breath, cures headache and regulates the digestive organs. Cures chronic constipation. Ask us about it. t-t-s

Notice

The North Star Society meets tonight as usual at 8 o'clock. A special meeting will be held immediately after the regular meeting when refreshments will be served. All members come and enjoy the evening. J. H. JOHNSON, Sec.

The New Pure Food and Drug Law

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. t-t-s

Fatal Accident in Coal Mine.

Liege, Belgium, Nov. 5.—The cage of a coal mine shaft at Collard fell 360 feet, killing, fatally injuring or maiming its thirteen occupants.

This is Worth Remembering

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. t-t-s

There is a vast difference, says a wise philosopher, between wishing and winning. Many a good man has failed because he had his wishbone where his backbone ought to have been.

BLESSING TO MANY PEOPLE

May Mean Less Sickness and Suffering Here When Generally Known

VALUABLE TO OLD FOLKS

Simple Home Remedy and How to Prepare it for Kidney Trouble and Rheumatism

This is a message that will bring happiness again into many families and sunshine into the lives of hundreds of disheartened and discouraged men and women here. It requires just a little inconvenience, for it can't be bought already prepared. It is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder trouble which have made so many cripples and invalids and weaklings of some of our brightest and strongest people.

The druggists here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract of Dandelion, one-half ounce; Compound Kargon, one ounce, and Compound Syrup of Sarsaparilla three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments, even in severe hospital cases, prove this simple mixture the remedy for rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful, scalding and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure, puts new life into them and invigorates the entire tract. It makes the kidneys clean the blood. The Dandelion will take care of liver trouble and constipation, and is fine for the stomach.

All the ingredients, states a well-known local druggist, are of vegetable extraction, making it a safe and harmless prescription at any time.

Those who suffer and are accustomed to purchase a bottle of patent medicine should not let a little inconvenience interfere with making up this prescription. Whenever this becomes generally known, states a large eastern publication, it ruins the sale of the patent medicines and so-called rheumatism and kidney cures, which is its best endorsement of virtue.

MUSIC AND DRAMA

Coming Attractions

Soon—Alice in Wonderland.
Soon—Adelaide Thurston.
Nov. 9—Midland Concert Company.

Midland Concert Company

The Bedford Chatauquan, Bedford, Iowa, says of the Midland Concert company, which appears in the Congregational church in this city next Saturday evening: "The Midland Concert company is all right. Four ladies compose this company and each and every one of them is capable of filling with honor a position as a prima donna with a successful troupe. They took their audience by storm and forced an unconditional surrender at the first assault. Their appearance is also in their favor, for they are all charming, graceful and decidedly pretty. If the concert companies which are to come are up to the standard of the Midland, the Chatauqua will be a success."

Adelaide Thurston

Adelaide Thurston, the brilliant, charming and talented young actress who comes here in her new and greatest play "The Girl From Out Yonder," has won for herself a place in the hearts of young girls in every city in which she has appeared that she is more jealous of even than the proud position she has attained in her profession.

Somehow or other she seems to select plays in which the characters she portrays while appealing to all classes of playgoers have a particular, and especial attraction for young girls. She acts as if she really were one of them, and that this is true, they quickly find out as soon as they talk to her.

In "The Girl From Out Yonder," in the more serious character of Flotsam she has disclosed a new and most charming side of her own character that has proved absolutely irresistible to her girl friends and they cry even as they laugh and go away from the theatre more in love with her than ever.

These girl friends of Miss Thurston are appreciative, too, and fairly deluge her with presents, mostly of a sentimental and inexpensive kind but none the less acceptable to her for that reason.

With her thousand or more mature admirers of both sexes it is pleasant to contemplate what a charming clientele is growing up with her girl friends. To be seen soon at the Brainerd opera house.

At The "Unique"

The public was entertained with a very pleasing program which will be repeated tonight and tomorrow night. The illustrated song, "When Our Firemen Meet Their Foe," is a beautiful piece. "Uncle's Heritage" is extremely comical. "The Honey Moon," showing a young couple in their first quarrel is amusing and "Making Pottery in Japan" is very instructive and amusing. "The Red-Man's Way," shows Indian love affair and the complications connected therewith.

"Bijou"

The "Bijou" has for its headliner tonight and Wednesday night "A Drama in Seville" a production in life motion photography unexcelled a drama interwoven with thrilling incidents and pathetic scenes. In this wonderful production, you witness an actual bull fight, with thrilling incidents and situations never before shown, "remember" this is a special picture which the manager of this popular theatre has secured at an additional cost outside of his regular rental service, and his efforts to give his patrons this special service should be rewarded by packed houses tonight and Wednesday night.

Cured of Bright's Disease

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." t-t-s

Moderate Price

Calumet Baking Powder

\$1.00.00 will be given for any substance injurious to health found in Calumet.

Grace—I hear that Charlie and Helen have made up their quarrel. Cassie—Only temporarily. They are going to be married soon.

WATCH YOUR TONGUE

If Furred and Coated, it is a Warning of Trouble to Come

When it is the morning after the night before, you do not have to look at your tongue to know that the stomach is upset, the head is aching with a dull rhythm, and that all the world looks black and dreary.

It may have been lobster Newburgh, Welsh rarebit or some other tasty dish that looked much better at night than the morning after. There is no need to look at the tongue thermometer then for symptoms of trouble. You naturally go to your box of Mi-o-na stomach tablets, and with one of the little relievers bring joy and gladness to the physical system.

The real time to watch the tongue is all of the time. If it is coated with white fur, or possibly with dark trimmings, even though the stomach does not tell you by the acute pains of indigestion that it needs help, yet the coating shows that you are getting into a bad way and that there is need of Mi-o-na.

Mi-o-na is so positive, so sure, so reliable in its curative action upon the stomach that H. P. Dunn, the local agent, gives an absolute guarantee with every 50-cent box he sells to refund the money unless the remedy gives absolute and complete satisfaction. 128-132-134

Brandy and water are supplied at the expense of the government to every member of the Belgian parliament who makes a long speech.

PISO'S

Consuming Consumption

even in its most insidious form is not always incurable. The first intelligent step in the treatment of the disease is to stop the violent paroxysms of coughing which tear the lungs and enfeeble the system. Piso's Cure has permanently cured many consumptive coughs, as shown by court testimony because its antiseptic, healing and soothing qualities act directly on the lungs and bronchial passages, stopping the coughing and gently healing the lacerated tissues. Even the most advanced consumptive coughs have responded quickly to Piso's Cure, which being absolutely free from opiates or habit-forming drugs is the ideal remedy for every form of coughs, colds, bronchitis in young and old. For nearly half a century Piso's Cure has been demonstrating that the most advanced form of chest affections

It's twice the size and less than one-half the cost of any brand of really good transparent soap.

Just a little Rengo

CHICAGO

TONS OF DIAMONDS.

An Estimate on the Output of the Mines of the World.

Like all precious metals and stones, the unit of weight usually employed in regard to diamonds is the carat, of which 151.2 go to make up a single ounce. To think of sacks of diamonds by the ton staggers the imagination; indeed, the average annual output of the Kimberley mines is not more than half a ton all told.

Statistics have been published recently at Cape Town giving the output for several years past of the Kimberley mines and the river diggings. These yielded in the three years 1903-05 nearly 7,250,000 carats, say a ton and a half. The monetary value of these diamonds was £14,450,000. Since the first diamond was discovered by the banks of the Vaal in 1867 down to the end of 1906 it is estimated that the total weight of diamonds extracted from the Griqualand mines is over thirteen and a half tons, of a market value of fully £95,000,000.

If statistics of this sort could be trusted—and in the case of the South African yield they closely approximate to the facts—only seventeen tons of diamonds had been mined all over the world to the end of 1901. With the same relative output since that year from Brazil and India—the world's output of diamonds is now more than twenty tons.

The figures seem small, considering the ages diamonds have been worked in India and elsewhere in the East, and must be largely guesswork with respect to the output in antiquity. It is, however, certain that more diamonds have been placed on the market in the last forty than in the previous thousand years.—Pall Mall Gazette.

How to Get Rid of Fat

A quick, harmless reducer of fat, called Rengo, has come into popular use, which far eclipses any method or treatment heretofore used.

Death From "Fatty Heart" Comes at the Most Unexpected Moment.

Rengo requires no exhausting exercises or starvation dieting to help it out, as so many of the so-called fat reducers do. You can go right ahead and attend to your regular daily duties. It compels proper assimilation of the food and sends the food nutriment into the muscles, bones and nerves and builds them up instead of piling them up in the form of excess fat.

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.50 per full sized box, or by mail prepaid, by the Rengo Co., 3151 Rengo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail, if you write them direct to Detroit; no free packages at drug stores.

For sale and recommended in Brainerd by H. P. Dunn & Co., Druggists.

MARKET IS BUOYANT

Because Bankers Will Support Trust Companies.

SEEK MUTUAL PROTECTION

Agreement Reached by Which Trust Companies Will Co-Operate in the Future—Directors Will Lend Assistance of Personal Fortunes.

New York, Nov. 5.—The buoyancy of the stock market reflects the ultimate decision of large bankers to support the two institutions—the Trust Company of America and the Lincoln Trust company—which have been subjected to the most severe runs during the past two weeks.

Despite conflicting rumors the fact that there has been no diverse development is evidence that the worst is probably over. An agreement has been reached, largely through the influence of Mr. Morgan, by which the trust companies will co-operate in the future for their mutual protection and the directors will lend the assistance of their personal fortunes to meet immediate necessities. The assets of the two threatened companies have been gone over by experts and both were found to be solvent, with a considerable surplus after paying all claims and providing for the capital stock.

Under these circumstances it was thought advisable by the big men to support them if they would adhere to thoroughly conservative methods.

The achievement of these results, with the steady upward movement of the stock market, is believed to mark the turn of the crisis. The loss of \$30,000,000 in cash by the clearing house banks, in spite of the \$30,000,000 that had been poured into their tills during last week from the treasury, was expected to have a disturbing effect. It was a worse showing than will be possible again in face of the heavy arrivals of gold.

Gold engagements since the beginning of the present movement now amount to \$32,000,000, which would more than bridge the loss in surplus reserve last week. The disturbances that are sweeping over the exchange market and arousing concern in foreign markets were indicated by the rise of foreign exchange in New York considerably above the point at which gold could profitably be imported.

The fact that it is still coming this way indicates the determination of bankers to strengthen their position even at a loss. The high rate for bills was caused by the demand for exchange to cover the arrivals of gold.

Cotton Bills Not Yet Available.

The Cotton bills are not yet fully available because shipments are slow and the bills themselves are subjected to considerable scrutiny before they are taken. The fact that the New York market bid a sufficient premium for gold to absorb £400,000 from the open market and to withdraw an additional amount of £433,000 from the Bank of England indicated that the increase in the discount rate of the Bank of England from 5½ to 6 per cent, was not sufficient to check the gold movement.

Hence arose much talk in London that the rate would be advanced to 7 per cent at the regular meeting of the board of governors on Thursday. This will be the highest rate attained for many years, but with \$32,000,000 in gold already on the way to New York or engaged for shipment, even a higher rate at the Bank of England probably would not materially injure credit. It is still believed that the Bank of France would aid the Bank of England by loans on sterling bills at Paris if the situation required it.

Reports from Washington indicate that the national banking situation throughout the country is sound and that the efforts of the comptroller to get notes in circulation are meeting with considerable success. The calls for bank circulation are so numerous that the mail can hardly be handled promptly by the clerks in the office of the comptroller. Some of the amounts applied are small, but the requests come from all over the country. It is believed the currency will aid materially in relieving local pressure.

The price of United States bonds is firmer than for some time, showing an increase in several classes of ½ to 1 per cent and indicating that the banks were in the market as purchasers.

The elevators, boats and warehouses at Buffalo have \$2,600,000 bushels of grain and 500 carloads of merchandise and manufactured goods, very largely for export, against which drafts for gold could be drawn the moment the freight is loaded on vessels that are waiting at Atlantic ports for cargoes. The magnitude of the accumulation of American products is indicated by the fact that the railroads find themselves unable to move it to the seaboard, in spite of the enormous development of traffic facilities within the past few years.

Kills His Little Sister.

Marshall, Wis., Nov. 5.—The six-year-old child of Christ Eckee, a laborer of this city, died at St. Joseph's hospital as a result of injuries received at the hands of her nineteen-year-old brother. He was cleaning a rifle in the midst of a number of children and playfully pointed the weapon at his little sister, snapping the trigger. The bullet entered the intestines, making over twenty perforations at the most vital point.

RECONCILIATION EFFECTED

Helen Maloney and Her Father Again on Good Terms.

Philadelphia, Nov. 5.—It is said that Helen Maloney, daughter of Martin Maloney, the wealthy financier of this city, and wife of Herbert Osborne, who eloped with Samuel Clarkson, a young Englishman, on Oct. 4, has had a reconciliation with her father and is either in America or is on her way here.

Mr. Maloney is still said to be in Europe, although he may return to his home here at any time. Mrs. Maloney is in a sanitarium in this city and the

MISS HELEN EUGENIE MALONEY.

condition of her health is such that she has been denied to her closest friends.

These facts were learned from an intimate friend of the young woman, who further declares that Herbert Osborne renounced his religion and became a Roman Catholic when he married Helen Maloney, and this marriage has been recognized by the Maloney family, although it took place two years ago and they knew nothing of it until after the Clarkson affair.

The reconciliation between Mrs. Osborne and her father took place some time before Samuel Clarkson returned to London and took up bachelor apartments in that city.

DISCUSSES TIMBER SUPPLY

Forester Pinchot Says It Will Be Exhausted in Twenty Years.

Washington, Nov. 5.—"In twenty years the timber supply in the United States on government reserves and private holdings, at the present rate of cutting, will be exhausted, although it is possible that the growth of that period might extend the arrival of the famine another five years."

This announcement was made by Gifford Pinchot, the government forester, who has just returned from an inspection tour of 10,000 miles.

In sounding his warning, Mr. Pinchot urged that the danger of the situation should not be underestimated. He said that the United States used more lumber per capita than any other country and that every man, woman and child would be affected. He decried the policy of discounting the future of the country by failure to protect the natural resources, and he advised every one who has not already done so to read President Roosevelt's speech at Memphis on this general subject.

About one-fifth of the forest area of the United States is government reserves, but Mr. Pinchot called attention to the fact that as privately owned timber lands are better than the government reserves as a general rule, the government does not control one-fifth of the timber supply. The forest service will ask congress for more money and more men in order to extend the service and will push the work of reforesting the denuded timber lands. Mr. Pinchot says, however, that it is utterly beyond the possibility of the service to meet the situation.

President Roosevelt expects to call a conference in Washington soon of governors of states and expert in the study of natural resources. The conference will be for the purpose of development in favor of the administration's policy looking into the future in the matter of conserving natural resources.

ENDEAVORS TO ESCAPE.

Henry Huntington Overpowered by Keepers of French Asylum.

Versailles, Nov. 5.—Henry Huntington tried to escape from the asylum where he is confined by climbing over a wall, but after a fierce struggle with the keepers he was returned to confinement.

Huntington is the young American who last July shot and wounded his two brothers and two sisters at the bedside of his dying father. A week ago he was pronounced by medical experts to be totally irresponsible. It now develops that he has acute mania.

Insurance Scandal Cases Ended.

Minneapolis, Nov. 5.—Fred J. Sackett, former secretary and treasurer of a Minneapolis insurance company, indicted by a former grand jury on two charges of grand larceny in the first degree, appeared before Judge Fred V. Brown and both cases were nolle. The action ends the long line of insurance scandal cases which have been hanging fire in Minneapolis for two years.

Ten Men Injured.

Pittsburg, Nov. 5.—Ten men were injured, several of them seriously, by the overturning of a flat car loaded with sheet iron bars at the plant of the Zug Steel and Iron company.

GIRLS ARE BEING STOLEN

Alleged That They Are Sent to Panama for Immoral Purposes.

Battle Creek, Mich., Nov. 5.—That girls are being stolen from American homes and sent to Panama for immoral purposes was the statement made at the National Purity congress here by Rose Johnson, a missionary who has spent several years in Colon, where she established a board home for American boys. Miss Johnson told of a twelve-year-old girl she had attempted to rescue in Colon, who told her she had been enticed from New York city by a strange woman. Miss Johnson said that she was attacked in her efforts to get the girl out of a den and later received word that the child had been beaten to death.

Miss Johnson has also done rescue work in Alexandria and she said she rescued one girl who had been shipped as a white slave from Toronto to Chicago, then to New York, then to Paris and then to Egypt. She said that drinking and gambling conditions in Colon appeared to her worse than in Port Said.

Other speakers were Drs. Denslow Lewis and J. B. Caldwell of Chicago, and Rebecca Wienberger, delegate from the National Congress of Jewish Women.

MUSEUM GETS MONEY.

Court's Decision Gives It Nearly Half a Million Dollars.

Chicago, Nov. 5.—The Field museum of natural history profited by a decision rendered by Judge Cutting of the probate court to the extent of \$450,000. The money in question was paid by the late Marshal Field to the trustees of the museum prior to the date of his will, which contained a bequest of \$8,000,000 to the institution. A suit was brought by the trustees against the executors of the will to determine whether or not the bequest was intended to be exclusive of the amount previously donated. Judge Cutting decided in favor of the museum on the testimony of President H. N. Higginbotham of the board of trustees, and Frederick L. V. Skiff, curator of the museum, who related conversations with the decedent which were held to indicate his intention in the matter.

Makes His Farewell Address.

New York, Nov. 5.—General William Booth of the Salvation Army addressed an audience that filled Carnegie hall. It was the formal farewell address of what will probably prove to be General Booth's last visit to America. Leslie M. Shaw, former secretary of the treasury, presided.

Night Operator Robbed.

Hawley, Minn., Nov. 5.—The Northern Pacific night operator, Howard Rice, was startled by the smashing of window glass and saw a gun pointed at him. While held up by the man outside, another man came in and searched Mr. Rice, getting about \$15 and his watch.

Both Sioux and Utes Quiet.

Pierre, S. D., Nov. 5.—Both the Utes and Sioux are quiet, according to a telephone message received here from the Cheyenne Indian agency. A report had been circulated here that the Sioux were threatening to cause trouble because of sympathy with the Utes.

TELEGRAPHIC BREVITIES.

The official organ of the vatican declares that rumors of the ill health of the pope are absolutely unfounded.

Diego Barros Arana, the most eminent historian and educator in Chile, is dead at Santiago. He was born in 1830.

Frederick Webber, secretary general of the supreme council of the Scottish Rite Masons, Southern jurisdiction, is dead at Washington.

MARKET QUOTATIONS.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator... makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medication which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhoea; atonic (weak) condition of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhoea (suppressed or absent monthly periods), or abnormal conditions of the reproductive system; abnormal condition of the digestive organs and general debility (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medicinal properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhoea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

Here is a complete sentence in eight words. Can you read it?

Stand
Took
You
To
Throw
Takings
My.

A prize of \$10 will be awarded to the first reader sending in a correct reading of the foregoing sentence.

P. S.—Upon second thought we will answer this ourselves and save the \$10 to buy ham and eggs with. Here it is: "I understand you undertook to overthrow my undertakings."—Pittsburg Press.

Mark Twain's Mean Man.

"The meanest man I ever knew," said Mark Twain, "lived in Hannibal. He sold his son-in-law the half of a very fine cow and then refused to share the milk with the young fellow on the ground that he had only sold him the front half. The son-in-law was also compelled to provide all the cow's fodder and to carry water to her twice a day. Finally the cow butted the old man through a barbed wire fence, and he sued his son-in-law for \$50 damages."

Taken at His Word.

Master Walter, aged five, had eaten the soft portions of his toast at breakfast and piled the crusts on his plate.

"When I was a little boy," remarked his father, who sat opposite him, "I always ate the crusts of my toast."

"Did you like them?" inquired his offspring cheerfully.

"Yes," replied the parent.

"You may have these," said Master Walter, pushing his plate across the table.—Harper's Weekly.

Korean English.

The following gem of English as it is writ by a Korean was handed to us by one of our reporters: "Some days last one of the families in Shoung Pyung Chun made a loud when he soundly slept in the dreaming, at the whilst one of the Japanese military officers arrived there and asked the reason of making noise."—Korea News.

Second Best.

"No," said the sweet young thing, "I wouldn't marry the best man on earth."

"Then my case must be hopeless," said the youth sorrowfully.

"Not at all. I simply said that to encourage you."—Pittsburg Press.

Physicians assert that rare meat is one of the most dangerous foods for a human being to eat, as it may contain the seed of a parasite.

Pains of the Aged ARE OVERCOME.

Almost daily we hear of people of advanced years whose pains and aches have been overcome, and whose life has been made more comfortable by the use of Dr. A. W. Chase's Kidney and Liver Pills.

Because the liver, kidneys and bowels become sluggish in action, poisonous waste matter is left in the blood, and this brings the pains and aches, the stiff joints, lame back and rheumatism.

Dr. A. W. Chase's Kidney and Liver Pills

Help most promptly and cure most thoroughly on account of their direct and combined action on liver, kidneys and bowels. They are the most popular medicine the famous Receipt Book author ever introduced, and are guaranteed by his portrait and signature on the box. One pill a dose, 25 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Mr. Sylvester Pappert, 117 South Main St., Shenandoah, Pa., states: "For twenty years I was troubled with constipation and kidney troubles, and could get no relief; since using Dr. A. W. Chase's Kidney and Liver Pills the pains and aches have gone, the action of the kidneys is normal and the bowels regular."

H. P. DUNN, Druggist.

We satisfy all our patrons. We supply only the highest grade of liquors and the choicest brands on every order—the kind that are guaranteed pure. When you order for family use be sure you send to us for your needs. The best brandies, cordials, whiskies and bottled beer at low prices.

Health Reformers Die Young.

Almost without exception, remarks Health Culture plaintively, the health reformers have died early, probably because most of them have been extremists, and extremism is always fatal both to physical and to mental health.
